Project Title: UCab – Cab Booking Web Application

Project Design Phase-I - Solution Fit Template

Define CS, fit into CC

1. CUSTOMER SEGMENT(S) CS

Who is your customer?
i.e. working parents of 0-5 y.o. kids

20-45 years

6. CUSTOMER CONSTRAINTS CC

What constraints prevent your customers from taking action or limit their choices of solutions? i.e. spending power, budget, no cash, network connection, available devices.

budget

5. AVAILABLE SOLUTIONS AS

Which solutions are available to the customers when they face the problem or need to get the job done? What have they tried in the past? What pros & cons do these solutions have? i.e. pen and paper is an alternative to digital notetaking

N.A

Explore AS, differentiate

Focus on J&P, tap into BE, understand RC

2. JOBS-TO-BE-DONE / PROBLEMS J&P

Which jobs-to-be-done (or problems) do you address for your customers? There could be more than one; explore different sides.

Ride

9. PROBLEM ROOT CAUSE RC

What is the real reason that this problem exists?
What is the back story behind the need to do this job?
i.e. customers have to do it because of the change in regulations.

—

7. BEHAVIOUR BE

What does your customer do to address the problem and get the job done?
i.e. directly related: find the right solar panel installer, calculate usage and benefits; indirectly associated: customers spend free time on volunteering work (i.e. Greenpeace)

—

Focus on J&P, tap into BE, understand RC

Identify strong TR & EM

3. TRIGGERS TR

Customers are triggered to use cab services when they urgently need transportation, when public transport is inconvenient, or when they see others using ride-booking apps. Online advertisements, recommendations from friends, and social media promotions also influence customers to try digital cab booking platforms.

4. EMOTIONS: BEFORE / AFTER EM

Before using UCab customers may feel frustrated, uncertain about taxi availability, and worried about pricing. After using UCab they feel confident, secure, and satisfied due to transparent pricing and convenient booking.

10. YOUR SOLUTION SL

UCab provides a centralized web platform where users can easily search for available cabs, estimate fares, and book rides. The platform connects users, drivers, and administrators in a single ecosystem, simplifying transportation management and improving ride accessibility.

8. CHANNELS of BEHAVIOUR CH

8.1 ONLINE

Customers interact with the platform through the web application, online advertisements, social media platforms, search engines, and email notifications.

8.2 OFFLINE

Offline channels include word-of-mouth recommendations, taxi driver promotions, local advertisements, and partnerships with hotels or travel agencies..

Identify strong TR & EM
